2. Hazard Identification

2.1 Classification of the substance or mixture

No parts of the Filter are classified as hazardous under the Article 39 Paragraph 1 of the Industrial Safety and Health Act (ISHA). It is not regulated for the MSDS creation and labeling by the provision of Article 41 Paragraph 1 of the ISHA.

2.2 Labeling:

No parts of the Filter are classified as hazardous under the Article 39 Paragraph 1 of the Industrial Safety and Health Act (ISHA).

2.3 Other hazards

No parts of the Filter contain any organic halogen compounds (AOX), nitrates, heavy metal compounds or formaldehydes.

3. Composition/Information on ingredients

Component	Chemical Identity	Common name	CAS	Conc. (%)
FILTERSORB SP3	Ceramic coating	Calcium hydroxide	1305-62-0	< 1
FILTERSURD SP3	Matrix	Modified Acrylic polymer	9003-04-7	> 99
Filter Body	Talc	(Mg ₃ H ₂ (SiO ₃) ₄)	14807-96-6	< 15
Filter Body	POP	1-Propene, polymer with ethene	9010-79-1	≥ 75
Filter Head	Base Resin	Polyoxymethylene Copolymer	24969-26-4	≥ 99
Carbon Block	Carbon	Carbon	7440-44-0	≥ 94
Carbon Block binder	UHMWPE	Ethene Homopolymer	9002-88-4	< 6

Amounts specified are typical and do not represent a specification. Remaining components are proprietary, non hazardous and/or present at amounts below reportable limits.

Version: 1.0 Revision Date: 12.31.2020

4. First-Aid Measures

4.1 General Information:

4.1.1 Eye contact: No specific information available on the product. Polymer particles can cause mechanical irritation.

4.1.2 *Skin contact:* Hot or molten material has the potential to cause thermal burns. Polymer particles can cause mechanical irritation.

4.1.3 *Inhalation:* No specific information available on the product. Pellets are not considered an inhalation hazard

4.1.4 Ingestion: No specific information available on the product, however, low toxicity by this route is expected based on the biological activity of high molecular weight polyacetal polymers.

Note to physician:

Treatment: Treat according to symptoms (decontamination, vital functions), no known specific antidote.

5. Fire Fighting Measures

The product is non-combustible.

5.1 Extinguishing media

• **P378:** Extinguish with water, foam, CO₂, dry chemical

5.2 Unsuitable extinguishing media:

None known

5.3 Exposure hazards:

None known

5.4 Combustion products:

carbon oxides

5.5 Protective equipment:

• Firefighters and other exposed, wear self-contained breathing apparatus and protective suit.

6. Accidental Release Measures

6.1 Environmental precautions:

• Keep out of drains and water sources

6.2 Methods for cleaning up:

• Vacuum or sweep up material and placed in a designated waste container.

Material Safety Data Sheet

Version: Revision Date:

1.0 12.31.2020

7. Handling and Storage

7.1 Handling

• Normal equipment handling.

7.2 Storage

Code	Storage precautionary statements	Hazard Class	Hazard Category	Conditions for use
P412	Store at a temperature not exceeding 40°C (104°F)	n/a	n/a	Media might lose moisture at higher temperature and this might damage the scale- prevention media's active surface.

8. Exposure Control/Personal Protection

8.1 Exposure limit:

• None

8.2 Personal protective equipment (PPE):

8.2.1 Respiratory protection:

- Respiratory protection if dust is formed.
- In case of insufficient ventilation, use an appropriate approved particulate respirators (for example EN 143 or 149, type P2 or FFP2).

8.2.2 Eye protection:

• Have eye flushing equipment available.

8.2.3 Skin protection:

- Suitable material: latex, chloroprene, butyl rubber, nitrile rubber, neoprene.
- Wear appropriate protective clothing. Avoid skin contact with the spilled product.

8.2.4 General protective and hygienic measures:

• Avoid contact with the eyes and skin.

9. Physical and Chemical Properties

Material: FILTERSORB SP3

Appearance	White/opaque solid granules
Odor	Odorless
Odor threshold	n/a
pH (10 g/l)	6.5 - 8.0
Melting point/freezing point	n/a
Initial boiling point and boiling range	n/a
Flash point	n/a
Evaporation rate	Does not evaporate
Flammability	Non-flammable
Upper/lower flammability or explosive limits	n/a
Vapor pressure	n/a
Vapor density	n/a
Relative density	780-800 g/cm ³
Solubility	Non-soluble

Version: Revision Date: 1.0 12.31.2020

Partial coefficient (n-octanol/water)	n/a
Auto-ignition temperature	Does not auto ignite
Decomposition temperature	≥ 100°C (212°F)
Viscosity	n/a

Material: Filter Body (POP)

Appearance	White solid (under normal temperature)
Odor	Slight characteristic odor
Physical state	solid
Melting Point	165 °C (329 °F)
Solubility	Not soluble
Upper/Lower explosion limit density	1.03 g/cm ³

Material: Filter Head (Polyoxymethylene Copolymer)

Appearance	White solid (under normal temperature)
Odor	Slight characteristic odor
Physical state	solid
Vapor Pressure	< 0.001 mm Hg
Melting Point	165 °C (329 °F)
Solubility	Not soluble
Specific Gravity	1.4 – 1.8

Material: Carbon block

Appearance	Black
Odor	odorless
Physical state	solid
Ignition temperature	≥ 350 °C ()
Solubility	Not soluble
Bulk density	500 - 520 g/cm ³

Material: Carbon block binder (Ethene Homopolymer)

Appearance	White powder
Odor	Slight characteristic odor
Physical state	solid
Specific gravity	0.925 - 0.940 @ 25 °C
Solubility	Not soluble

10. Stability and Reactivity

10.1 Reactivity:

- The products are stable and do not react under normal condition of use, handling and storage.
- Thermal decomposition/conditions to be avoided: No decomposition if used according to specifications. Body polymer could be damage under heat over 170 °C

10.1 Chemical stability:

• All parts of the Filter have NFPA labeling: 0 Stable

10.2 Possibility of Hazardous reactions:

• None known

10.3 Conditions to avoid:

• Avoid contact with mineral acids, excessive heat and bases/alkalis

Material Safety Data Sheet

Version: 1.0 Revision Date: 12.31.2020

• Avoid storing at high temperatures or in direct sunlight.

10.4 Materials to avoid:

- Avoid Contact with strong oxidizing agents and alkaline substances.
- Metals like iron, manganese, copper can foul the media surface in soluble (ionic) form.

10.5 Incompatible Materials:

• No data available

10.6 Hazardous decomposition products:

• No data available

11. Toxicological Information

FILTERSORB SP3 and none of its composition substances are categorized as "toxic" under the GHS guideline.

11.1 Acute toxicity:

• Oral LD50 (rat) >5000 mg/kg (FILTERSORB SP3)

11.2 Skin corrosion/irritation:

- Skin corrosion: No corrosive damage on the skin
- Skin irritation: No irritation of the skin and mucous membranes

11.3 Serious eye damage/irritation:

• Eye: No damage to eyes

11.4 Respiratory or skin sensitization:

• No sensitizing effect known.

11.5 Mutagenicity (Ames test):

- Genotoxicity in vitro: Negative for Salmonella typhimurium mutagenic studies
- Genotoxicity in vivo: no data available

11. 6 Carcinogenicity:

- No parts of the Filter are classifiable as a human carcinogen.
- No parts of the Filter are contain any ingredient designated as probable or suspected human carcinogens by: IARC and ACGIH

11.7 Reproductive toxicity:

• No parts of the Filter contain any ingredient designated as probable or suspected reproductive toxicity accordingly Dangerous Substances Directive 67/548/EEC

11.8 STOT Single exposure:

No data available

11.9 STOT repeated exposure:

No data available

11.10 Aspiration Hazard:

No data available

Material Safety Data Sheet

Version: 1.0 Revision Date: 12.3

12.31.2020

12. Ecological Information

This product is not classified as dangerous for environment.

12. 1 Toxicity:

- **12. 1.1** Aquatic toxicity to fish:
- No parts of the Filter presents no hazard to Aquatic life forms
- **12. 1.2 Toxicity to aquatic plants:**
- No further relevant information available

12.1.3 Bio-accumulative potential:

Not applicable

12.1.4 Mobility in soil:

• No further relevant information available

12.1.5 Environmental data:

• Presents no hazard to the environment

Remark:

No parts of the Filter are classified as dangerous for environment.

13. Disposal considerations

13.1 Product Disposal:

- Dispose of wastes in an approved waste disposal facility.
- In accordance with local and national regulations.

13.2 Advice on cleaning and disposal of packaging:

- Contained packaging should be completely emptied.
- After being properly cleaned, it can be reused.

14. Transport Information

14.1 Land Transport (ADR/RID/ADN):

• Not classified as dangerous good under transport regulations

14.2 Sea Transport (IMDG/IMO):

• Not classified as dangerous good under transport regulations

14.3 Air Transport (IATA/ICAO):

• Not classified as dangerous good under transport regulations

15. Regulatory Information

- Labeling according to EU guidelines
- Hazard Symbols: none
- We recommend the following safety precautions: *S-phrases:*

Version: 1.0 Revision Date: 12.31.2020

S25 Avoid direct contact with eyes.

S36/37 Wear suitable protective clothing and gloves

16. Other Information

 NFPA (National Fire Protection Association) & HMIS (Hazardous Materials Identification System (Paint & Coating)) - Classification

Health:
